

## Candace Whitlock Artist Bio

Introduced to painting at a young age by a family of artists and art lovers, Candace only recently began to explore her inner artist.

Candace enjoys sharing her enthusiasm for and appreciation of myriad types of artwork. She finds talking about art, creative problem-solving, and comparing firing techniques with her husband and fellow glass artist, Chuck, especially fulfilling.

Natural subjects dominate Candace's artwork. A lifetime lover of bodies of water, Candace often interprets the beauty of oceans and beaches in her fused glass art, acrylic paintings, and sketches.
