

Sarah Marcus Studio

Description of Work

Raised in Colorado, Sarah was inspired by the beauty all around her. From the majestic mountains to the rolling plains, she noticed color, detail and form all around. Climbing tall peaks and studying nature along the way has allowed her imagination to flourish. These memories inform her art even today. Sarah paints in soft pastel on a variety of prepared surfaces, depending on the mood she wishes to create. The memories of landscape details and wild nature inspire her subject choices. She enjoys exploring vibrant color choices that are available in the pastel medium along with soft impressionist mark-making.

Artist Statement

My artwork is inspired by exploration in the outdoors and the beauty found in the natural world. My paintings are representations of the mood and flow throughout the seasons. I am inspired by color and the change in color that sunlight brings throughout the day. The complexity of our surroundings bring endless interpretation. Through my work, I hope to bring a sense of calm and wonderment at our glorious, physical world.
